About Bali Boo

Since opening Bali Boo in 2010, we have evolved from heavily carved old-world furniture to a wide range of curated works of art exclusively for Bali Boo.

Working together with talented Bali Artisans, we strive for exceptional quality, originality and one of a kind pieces that seamlessly complement our Island lifestyle while enduring the rigors of the local weather.

We believe our selection of solid teak wood furniture, our exclusive hand-carved collection, our handwoven basketry, petrified wood sculptures, vintage antiques, hand painted art works, and more will delight and inspire you to create a home that you will love.

Your home is your haven, a place to relax, entertain, a place you look forward to coming home to, a place you are proud of! We, at Bali Boo, hope to be a part of your journey. We hope you will be inspired when you walk through our doors and discover the veritable treasure trove of a delightful blend of the diversity of styles.

As our inventory is in a constant state of flux, a personal visit is the best way to fully immerse yourself in our vast selection.

Located at Kapa'a Industrial Park, Kailua, we take immense pride in showcasing our inventory in three buildings with multiple showrooms, the largest collection of its kind on the Hawaiian Islands.

Please take an opportunity to explore the very essence of Bali itself, celebrating the rich cultural heritage and seize the opportunity to find that "perfect specialty piece" that will elevate your living space to new heights.

So, whether you're a connoisseur of unique decor or simply seeking an alternative to the conventional, Bali Boo welcomes you to "Discover the Extraordinary."

Aloha!
